25X1

1. In response to the referenced requirement, a photographic search was made within a 50-nautical-mile radius of 48-40-00N 109-30-00E, near Ulaan Baatar, Mongolia. All available photography covering this area since March 1970 was used in the search. The purpose was to determine whether or not a Soviet nuclear energy detection system (SNEDS) station was present. The search was limited.

25X1

25X1

2. No SNEDS station was observed within the search area. The area was completely covered by photography of good interpretability on

25X1

3. Any SNEDS facilities observed in this area on future photography will be reported in the appropriate OAK or OAK Supplement report. This project is considered to be complete. Questions regarding this project may be directed to of the Eastern USSR Branch, WGD/IEG, on extension
